

Cast aluminum crossbeam

Exchange platform

Working table

Independent power distribution cabinet

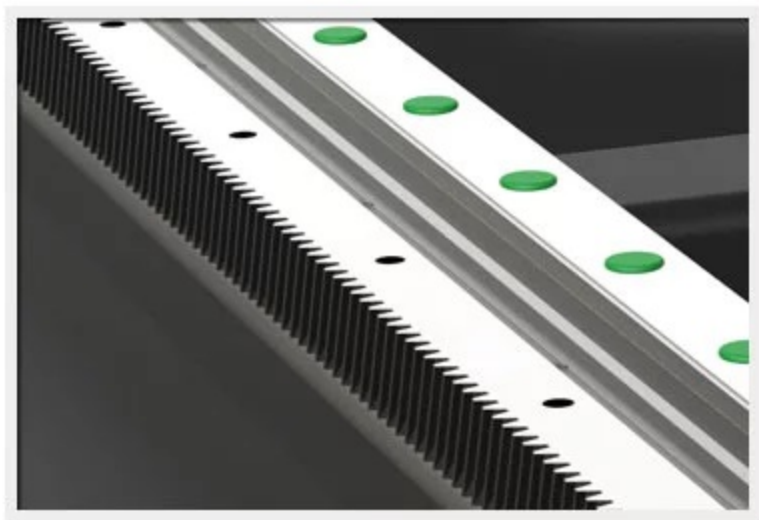

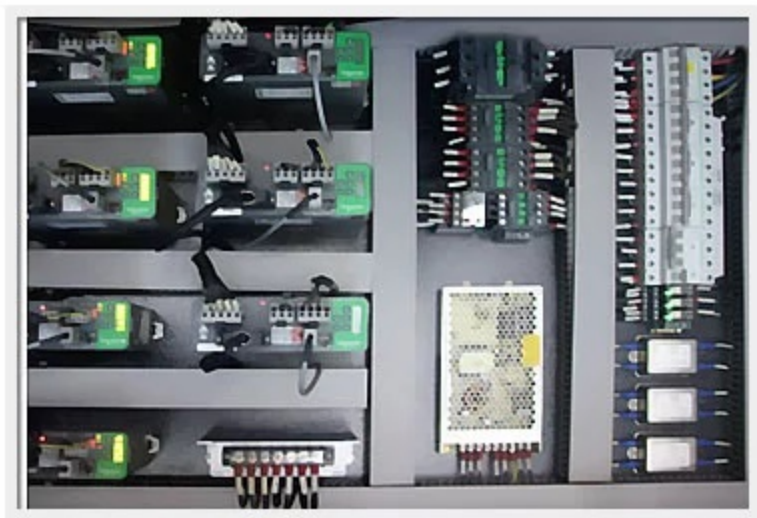

Sturdy and Durable

Exchange table, and sturdy plate-welding machine body, for cutting metal sheets

Reliable

Stable and reliable light path system and control system

Precision

Imported high performance reducer, gear and rack

01

Fiber Laser Source, use Germany IPG or Raycus Laser, with better performance, ultra-low noise, high stability and Ultra-long lifetime for 100,000 hours.

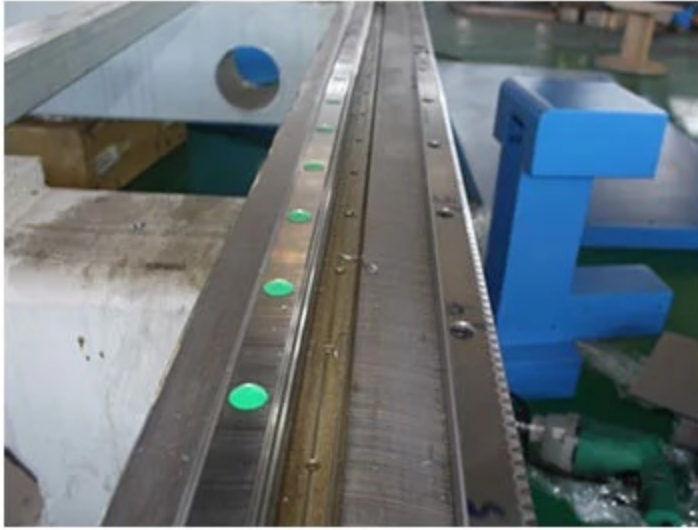

02

Laser Cutting Head

03

High precision Rail from Taiwan ShangYin Brand

04

Japanese Yaskawa Servo Motor for long using lifetime and accurate route moving

05

Cooling System: it is to cool the laser source and laser cutting head.

06

Remote Control

Quality Control

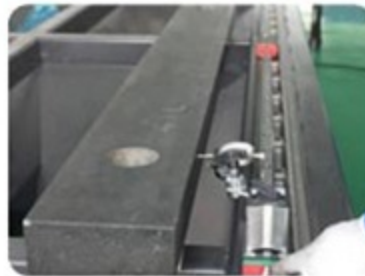

01

Strict parts screening to ensure every detail

02

Quality assurance during assembly process, ensure the error within a reasonable range.

03

Modify parameters, compensate data to ensure normal parameters.

01

Ex-factory acceptance, 3*24 hours after smooth running, modify parameters again.
